SUMMARY

Computer Science Engineering graduate and MERN Stack Developer Intern with hands-on experience building and deploying end-to-end web applications using MongoDB, Express.js, React, and Node.js. Skilled in developing REST APIs, responsive UIs, and implementing secure authentication..

EXPERIENCE

Luminar Technolab - MERN Stack Intern July 2025 – Present

- Built full-stack web applications using the MERN stack, covering frontend, backend, and database layers.
- Developed responsive, reusable UI components with React, Tailwind CSS, and Bootstrap.
- Implemented RESTful APIs, CRUD operations, and authentication using Node.js and Express, with Git-based version control.

PROJECTS

StudyMate – Full-Stack Productivity & Task Management Web App *Live Demo*

- Developed a full-stack productivity app using React, TailwindCSS, and Firebase featuring tasks, notes, and a Pomodoro timer.
- Implemented Firestore CRUD operations with user-specific security rules for safe, real-time data handling.
- Integrated Firebase Authentication with protected routes and personalized dashboards.
- Deployed on Firebase Hosting with CI/CD using GitHub Actions.

SkillStack – Full-Stack Skill Tracking Web Application *Live Demo*

- Built a full-stack skill tracking app using React and FastAPI.
- Implemented REST APIs with SQLAlchemy ORM and Pydantic validation.
- Integrated frontend with backend using secure CORS-enabled APIs.
- Deployed frontend on Vercel and backend on Railway.

EDUCATION

B.Tech in Computer Science Engineering

College of Engineering Kallooppara (KTU)

2021 – 2025

CGPA: 7.99/10

SKILLS

Languages: Python, HTML, CSS, JavaScript

Frontend: React, Tailwind CSS, Bootstrap, Framer Motion

Backend: FastAPI, Node.js, Express

Databases & Auth: Firebase, Firestore, MongoDB

Tools: Git, GitHub, VS Code
